Linda, on May 2, 2022 we had a call with you and Treasure Bailey to discuss, among other things, our proposed list of professional consultants and laboratories, which had been provided on April 26, 2022 by Jon Bloomberg to Charles Figure. We understood from that call that EPA had accepted our proposed list (attached email), and although it was in advance of the Final Order, we understood that we had met the notification requirements of Paragraph 80 of the Order, Retention of Professional Consultants and Laboratories. However, I have attached again for your records the list of Professional Consultants and Laboratories that will be used for implementation of the Order. We will renotify EPA within 7 days of any proposed changes to this list.
